

CIPPA Presentation

Eleanor Gray, Equine Photography

Speaker: Eleanor Gray

Presentation Date Feb 6th, 6:30 pm

[About Eleanor](#)

Eleanor will speak about her simple recipe for achieving dynamic and beautiful photographs of horses! Please join us to hear Eleanor share with us how she prepares, captures, and processes her Equine images.

While I discovered photography late in my life, I truly feel blessed to have found such a wonderful way to capture moments in time and share them with the world. I am truly passionate about photography, and continue to learn every time I pick up my camera! I continue to expand my photographic education by attending the West Coast School of Photography each year, as well as attending several other photographic seminars, conventions, workshops, and classes throughout the year to ensure I'm ready to take on any project.

I am a Certified Professional Photographer (CPP) through the Professional Photographers of America (PPA), a member and 2nd Vice President of the Professional Photographers of California (PPC), and am immediate past President of the Professional Photographers of Los Angeles County (PPLAC). In August 2020, I completed training to become a qualified PPC judge for image competitions at the state and local affiliate level.

Presentation Payment Info
